Identification Verification

The New Jersey Motor Vehicle Commission (MVC) will verify the age, identification, address, Social Security number (SSN), and immigration status (applicable candidates only) of every person applying for a permit, or applying for or renewing a New Jersey driver or boat license, and non-driver ID. (Altering a driver license, or showing an altered driver license, may result in loss of your driving privilege, a fine of up to \$1,000, and/or up to six months imprisonment. In addition, getting a driver license illegally may result in a fine of \$200 to \$500 and/or imprisonment of 30 to 90 days.)”

All identification verification will occur BEFORE any initial or renewal document is issued and BEFORE a digital photograph is taken and stored in MVC’s digital database.

MVC’s 6 Point ID Verification Program prevents applicants with fraudulent documents from obtaining official documents. It lists specific documents that may be used to verify age, identity, address, SSN, and immigration status. It also assigns a point value to these documents. To qualify for official documents, an applicant must total six points and show acceptable proof of address.

Additionally, all applicants’ SSN will be verified immediately with the Social Security Administration. Submission of an applicant’s SSN is required under state law.

For applicable candidates, there may be verification of that person’s authorized legal presence in the United States through the federal United States Citizenship and Immigration Services (USCIS).

For a complete list of acceptable documents for citizens and foreign nationals, visit MVC on the Web at www.njmvc.gov.

Welcome to driving in New Jersey!
